Due to the different shoe assemblies and fit variants / brands, we have developed the table below for absolute fit so that you can be sure that your Micro Crampon fits and holds perfectly on your individual shoe.

step 1

Check the dimension of your shoes, by taking the measures L and C:

L = Length of the shoe, measured at the sole

C = Circumference of the shoe, measured at the top 1/4 of the shoe

step 2

Choose the right size of your Micro Crampons from this table;
